

**Confronting Crisis**  
**Third Biannual Conference of The Australian Hegel Society**  
CALL FOR PAPERS  
December 2-3, 2021

The Third Biannual Conference of The Australian Hegel Society, hosted by UNSW Sydney and Macquarie University, will be held online on December 2-3, 2021.

Humanity is facing multiple intertwined crises on a global scale: environmental disasters, biodiversity collapse, zoonotic pandemics, capitalist acceleration and monopolization, rising inequalities, increased control and manipulation at the hands of states and corporations, the list goes on. A hallmark of Hegelian and post-Hegelian social thought has been to elaborate conceptual tools to grasp the features, problems, and crises of an age, as well as the paths that could lead beyond them. The conference explores the resources that Hegelian and post-Hegelian philosophy provides to think through our current predicament and to confront the many crises we are facing?
